

## Creating a Safe and Healthy Learning Environment

---

The following is a summary of TSBC's plans to ensure that the learning environment for our students is safe and healthy while providing the best Biblical and theological education available.

### Prevention

- We have increased routine cleaning for all rooms, hallways, and surfaces.
- Hand sanitizer and sanitizing wipes will be available in all classrooms.
- Regular hand-washing will be required of all employees.
- We have increased outside airflow in classroom HVAC systems.
- Faculty, staff, and students should clean and sanitize surfaces and equipment in their own workspace, classroom, or lab, as appropriate, throughout the day.
- Shared tools and equipment will be sanitized after each use.

### Face-coverings and Social Distancing

- All Faculty, Staff, and Students are encouraged to get the Coronavirus vaccination. TSBC also encourages the wearing of face coverings throughout the buildings and in classrooms until they are seated in the designated three-foot distance seating areas or are alone in a workspace.
- Larger classrooms enable three-feet of physical distancing.
- Clear signage emphasizing the use of facial coverings and reminding all to perform daily symptom assessments will be installed at appropriate building entry points and other areas throughout campus.

### Response

- The administration will monitor reports from local health officials to respond to developing COVID-19 guidelines and policies.
- Any student or employee with symptoms or exposure to an infected person will self-isolate according to CDC guidance and all those with whom that person has come in contact will be notified.
- Should someone on campus becomes infected with COVID-19, the classroom and spaces that student touched will be deep cleaned.
- All faculty and staff who test positive, have symptoms, and/or have been exposed to COVID-19 must complete the TSBC Employee COVID Reporting Form found in the Faculty & Staff Manual.

### Academic Adjustments

- All resident modular faculty are prepared to move their courses to remote instruction if warranted by additional outbreaks.
- Students and faculty taking resident modular classes who are exposed to COVID-19 will be allowed to continue the semester with remote learning.

### Remote Opportunities

- TSBC has a variety of online education options for students who do not want to take in-person classes during the Fall 2021 semester.
